| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Interleukin 34 (IL-34) is a 23.98 kDa cytokine with 216 amino acid residues. IL-34 is a ligand of the colony-stimulating factor 1 receptor (CSF-1R) and is mainly secreted from the adrenal, frontal lobe, and cortex. IL-34 play a vital role in the prol... |
| Molekulargewicht         | 25 kDa                                                                                                                                                                                                                                                        |
| Tag                      | IL-34                                                                                                                                                                                                                                                         |
| Reinheit                 | >98% as determined by SDS-PAGE.                                                                                                                                                                                                                               |
| Sequenz                  | Amino acid sequence derived from mouse IL-34 (Asn 21-Pro 235).                                                                                                                                                                                                |
