| Kategorie                | Antikörper                                                                                                                                                                                              |
| Applikation              | ICC, WB                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                                                                                                   |
| Konjugation              | Unconjugated                                                                                                                                                                                            |
| Produktbeschreibung      | NADPH-dependent reductase with broad substrate specificity. Catalyzes the reduction of a wide variety of carbonyl compounds including quinones, prostaglandins, menadione, plus various xenobiotics.... |
| Klonalität               | Monoclonal                                                                                                                                                                                              |
| Molekulargewicht         | Calculated MW: 30 kDa, Observed MW: 30 kDa                                                                                                                                                              |
| Isotyp                   | IgG1                                                                                                                                                                                                    |
| NCBI                     | <a href="#">873</a>                                                                                                                                                                                     |

|                        |                                                                                 |
