| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                                               |
| Produktbeschreibung      | TNFSF13B/TNFSF20 belongs to the tumor necrosis factor family. It abundantly is expressed in peripheral blood Leukocytes and is specifically expressed in monocytes and macrophages. Also found in the spleen, lymph node, bone marrow, T-cells and dendrit...                       |
| Molekulargewicht         | 46.9 KDa                                                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">9</a>                                                                                                                                                                                                                                                                   |
| Reinheit                 | Greater than 95% as determined by reducing SDS-PAGE                                                                                                                                                                                                                                 |
| Anwendungsbeschreibung   | Always centrifuge tubes before opening.Do not mix by vortex or pipetting.It is not recommended to reconstitute to a concentration less than 100 µg/ml.Dissolve the lyophilized protein in distilled water.Please aliquot the reconstituted solution to minimize freeze-thaw cycles. |
