| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | PSD95 protein plays a crucial role in PDZ domain binding, enzyme binding and signaling receptor binding. It is a structural component of the postsynaptic density and is involved in the regulation of synaptic transmission and cellular organization. PS... |
| Molekulargewicht         | 100-110 kDa                                                                                                                                                                                                                                                   |
| Reinheit                 | 80.11                                                                                                                                                                                                                                                         |
| Formel                   | 29495(Gene_ID)NP_062567 (M1-L724)(Accession)                                                                                                                                                                                                                  |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
