| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | SDC4 protein is a cell surface proteoglycan that cooperates with SDCBP and PDCD6IP to regulate exosome biogenesis.SDC4 exists as a homodimer and engages in important interactions with various intracellular partners.SDC4 Protein, Mouse (HEK293, His) i... |
| Molekulargewicht         | Approximately 19-25 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Reinheit                 | 96.00                                                                                                                                                                                                                                                         |
| Formel                   | 20971(Gene_ID)O35988 (E24-E145)(Accession)                                                                                                                                                                                                                    |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
