| Produktbeschreibung      | CD150/SLAMF1 protein is an autoligand receptor in the SLAM family, which can regulate the activation and differentiation of immune cells and affect innate and adaptive immune responses. Its activity depends on the cytoplasmic adapters SH2D1A/SAP and/... |
| Molekulargewicht         | 45-65 kDa                                                                                                                                                                                                                                                     |
| Reinheit                 | 95                                                                                                                                                                                                                                                            |
| Formel                   | 6504(Gene_ID)Q13291-1 (A21-P237)(Accession)                                                                                                                                                                                                                   |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
