| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | IL-18BP Protein belongs to immunoglobulin superfamily that bind to IL-18 and inhibits its activity. IL-18BP Protein functions as an inhibitor of the Th1 cytokine response[1]. IL-18BP Protein, Human (HEK293, hFc) is the recombinant human-derived IL-18... |
| Molekulargewicht         | Approximately 60-75 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                         |
| Reinheit                 | 97.00                                                                                                                                                                                                                                                         |
| Formel                   | 10068(Gene_ID)AAD17187.1 (T29-G192)(Accession)                                                                                                                                                                                                                |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
