| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | ANGPTL2/angiopoietin-like 2 protein takes center stage as it induces endothelial cell sprouting through dual autocrine and paracrine mechanisms. This ability underscores its critical role in angiogenesis, where balanced signaling events control the f... |
| Molekulargewicht         | Approximately 34 kDa                                                                                                                                                                                                                                          |
| Reinheit                 | 98                                                                                                                                                                                                                                                            |
| Formel                   | 23452(Gene_ID)Q9UKU9-1 (D245-H493)(Accession)                                                                                                                                                                                                                 |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
