| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | The S100A9 protein is a calcium and zinc binder that plays a critical regulatory role in inflammation and immune responses. Its diverse functions include induction of neutrophil chemotaxis, adhesion, enhanced bactericidal activity through SYK, PI3K/A... |
| Molekulargewicht         | Approximately 15.90 kDa                                                                                                                                                                                                                                       |
| Reinheit                 | 95.00                                                                                                                                                                                                                                                         |
| Formel                   | 490463(Gene_ID)A0A8I3MFK0/XP_038528057 (M1-H130)(Accession)                                                                                                                                                                                                   |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
