| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | LILRB3/CD85a protein, as a receptor for class I MHC antigens, plays an indispensable role in immune recognition. Activation of LILRB3 occurs through binding to immune receptors such as FCGR2B and B cell receptors, resulting in downregulation of antig... |
| Molekulargewicht         | Approximately 60-72 kDa, based on SDS-PAGE under reducing conditions, due to the glycosylation.                                                                                                                                                               |
| Formel                   | 102725035(Gene_ID)O75022 (G24-E443)(Accession)                                                                                                                                                                                                                |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                        |
