| Hersteller Artikelnummer | 32-5446                                                                                                                                                                                                                                                       |
| Alternativnummer         | ABI-32-5446-0.5MG                                                                                                                                                                                                                                             |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Source : E.coli derived recombinant from HCV subtype 5a fused to a GST tag. The protein contains the full-length HCV NS3 (c33c) immunodominant region. HCV is a small 50nm, enveloped, single-stranded, positive sense RNAvirus in the family Flaviviridae... |
| Reinheit                 | HCV NS3 Genotype-5a protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                                                                                                                                      |
