| Hersteller Artikelnummer | 32-9646-500                                                                                                                                                                                                                                                   |
| Alternativnummer         | ABI-32-9646-500-500UG                                                                                                                                                                                                                                         |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | Source : Human Cells,platelet receptor Gi24 is a single-pass type I membrane protein, and located at the cell surface. The protein can be cleaved by MMP14, and stimulate MMP14-mediated MMP2 activation. It is participated in the BMP signaling pathway.... |
| Antibody Type            | Recombinant Antibody                                                                                                                                                                                                                                          |
