| Artikelname              | PE Anti-Mouse Ly6C Antibody[Monts 1], Rat, Monoclonal                                       |
| Artikelnummer            | ELA-E-AB-F1121UD                                                                            |
| Hersteller Artikelnummer | E-AB-F1121UD                                                                                |
| Alternativnummer         | ELA-E-AB-F1121UD-100UG,ELA-E-AB-F1121UD-25UG                                                |
| Hersteller               | Elabscience                                                                                 |
| Wirt                     | Rat                                                                                         |
| Kategorie                | Antikörper                                                                                  |
| Applikation              | FC                                                                                          |
| Spezies Reaktivität      | Mouse                                                                                       |
| Konjugation              | PE                                                                                          |
| Klonalität               | Monoclonal                                                                                  |
| Konzentration            | 0.2 mg/mL                                                                                   |
| Klon-Bezeichnung         | [Monts 1]                                                                                   |
| NCBI                     | <a href="#">17067</a>                                                                       |
| UniProt                  | <a href="#">P0CW03</a>                                                                      |
| Puffer                   | Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant. |
| Target-Kategorie         | Ly6C                                                                                        |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                |

| Anwendungsbeschreibung | Each lot of this antibody is quality control tested by flow cytometric analysis. Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use. We suggest each investigator should titrate the reagent to obtain optimal results [The recommended concentration is 0.1-1 µg/10 <sup>6</sup> cells in 100 µL volume]. |
