| Expression System        | E.coli                                                                                                                                                                                                             |
| Reinheit                 | > 95% as determined by reducing SDS-PAGE.                                                                                                                                                                          |
| Formulierung             | Lyophilized from sterile PBS, pH 7.4. Normally 5%-8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Phe 601-Tyr 846                                                                                                                                                                                                    |
