| Reinheit                 | > 90 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                           |
| Formulierung             | Lyophilized from sterile 20mM Tris, 500mM NaCl, pH 8.0, 10% glycerol. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Met 1-Asp 419                                                                                                                                                                                                                                        |
