| Expression System        | E.coli                                                                                                                                                                                                                                               |
| Reinheit                 | > 97 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                           |
| Formulierung             | Lyophilized from sterile 20mM Tris, 50mM NaCl, 0.05% Brij-35, pH 8.0. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Cys 34-Pro 317                                                                                                                                                                                                                                       |
