| Reinheit                 | > 92 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                                      |
| Formulierung             | Lyophilized from sterile 50mM Tris, 100mM NaCl, 0.5mM DTT, 10% glycerol, pH 7.5. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Met 1-Gln 266                                                                                                                                                                                                                                                   |
