| UniProt                  | <a href="#">P28908</a>                                                                                                                                                                                                                     |
| Expression System        | HEK293 Cells                                                                                                                                                                                                                               |
| Reinheit                 | > 95 % as determined by reducing SDS-PAGE.                                                                                                                                                                                                 |
| Formulierung             | Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. Normally 5% - 8% trehalose, mannitol and 0.01% Tween 80 are added as protectants before lyophilization. Please refer to the specific buffer information in the printed manual. |
| Sequenz                  | Phe19-Lys379                                                                                                                                                                                                                               |
| Target-Kategorie         | CD30,TNFRSF8                                                                                                                                                                                                                               |
