| Hersteller               | MyBiosource                                                                                                                                                                                                                                                                               |
| Wirt                     | Human                                                                                                                                                                                                                                                                                     |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                                                          |
| Reinheit                 | >95% as determined by SDS-PAGE                                                                                                                                                                                                                                                            |
| Formulierung             | Lyophilized from sterile 20mM NaH <sub>2</sub> PO <sub>4</sub> , 150mM NaCl, 0.1M Arg, 0.1M Glu, 10% glycerol, 0.01% tween20, pH7.4. Normally 5%-8% trehalose, mannitol and 0.01% Tween80 are added as protectants before lyophilization. Please refer to the specific buffer information |
