## Product Datasheet

### Recombinant Human IL-1R-2 Protein (C-terminal hFc Tag), Unconjugated ABC-A332860-50

|                          |                                                                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Recombinant Human IL-1R-2 Protein (C-terminal hFc Tag), Unconjugated                                                                 |
| Artikelnummer            | ABC-A332860-50                                                                                                                       |
| Hersteller Artikelnummer | A332860-50                                                                                                                           |
| Alternativnummer         | ABC-A332860-50                                                                                                                       |
| Hersteller               | Antibodies.com                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                                     |
| Applikation              | SDS-PAGE                                                                                                                             |
| Konjugation              | Unconjugated                                                                                                                         |
| Konzentration            | Reconstitution dependent.                                                                                                            |
| Molekulargewicht         | 70-130 kDa due to glycosylation.                                                                                                     |
| Tag                      | C-terminal Human Fc Tag                                                                                                              |
| Puffer                   | Lyophilized from sterile Phosphate Buffered Saline, pH 7.4. Normally 5%-8% Trehalose is added as a protectant before lyophilization. |
| Expression System        | HEK293 cells                                                                                                                         |
| Reinheit                 | >95% as determined by SDS-PAGE and Coomassie blue staining.                                                                          |
| Formulierung             | Lyophilized                                                                                                                          |

|                  |                                                                                                                                                                                                                                                                                   |
