| Artikelname                      | Donkey IgG anti-Rat IgG (H+L)-unconj., MinX<br>Bo,Ck,Go,Gp,Hs,Ho,Hu,Ms,Rb,Sh      |
| Artikelnummer                    | JIM-712-005-153                                                                   |
| Hersteller Artikelnummer         | 712-005-153                                                                       |
| Alternativnummer                 | JIM-712-005-153                                                                   |
| Hersteller                       | Jackson ImmunoResearch                                                            |
| Wirt                             | Donkey                                                                            |
| Kategorie                        | Antikörper                                                                        |
| Spezies Reaktivität              | Rat                                                                               |
| Konjugation                      | Unconjugated                                                                      |
| Format                           | IgG                                                                               |
| Spezifität                       | IgG (H+L)                                                                         |
| Minimale Kreuzreaktivität (MinX) | Bovine,Gallus,Goat,Guinea pig,Hamster<br>(syrian),Equine,Human,Mouse,Rabbit,Sheep |
| Klonalität                       | Polyclonal                                                                        |
| Puffer                           | Buffer: 0.01M Sodium Phosphate, 0.25M NaCl, pH 7.6. Preservative:<br>None         |
| Reinheit                         | AffiniPure                                                                        |

|                        |                                                                                                                                                                                                                                      |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Sterile-filtered liquid                                                                                                                                                                                                              |
| Lagerung               | Storage: Store at 2-8°C under sterile conditions. Prepare working dilution on day of use. Expiration date: one year from date of receipt. The expiration date may be extended if test results are acceptable for the intended use.   |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                   |
| Application Verdünnung | 10-20 µg / ml Dilution factors are presented in the form of a range because the optimal dilution is a function of many factors, such as antigen density, permeability, etc. The actual dilution used must be determined empirically. |
