| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Produktbeschreibung      | CD276/B7-H3 protein can regulate T cell-mediated immune responses and act as a protective factor for tumor cells by inhibiting natural killer-mediated cell lysis. It also functions as a neuroblastoma cell marker, plays a role in acute and chronic tra... |
| Molekulargewicht         | Approximately 60-70 kDa,based on SDS-PAGE under reducing conditions,due to the glycosylation.                                                                                                                                                                 |
| Formel                   | 80381(Gene_ID)Q5ZPR3-2 (L29-P245)(Accession)                                                                                                                                                                                                                  |
| Anwendungsbeschreibung   | Recombinant Proteins                                                                                                                                                                                                                                          |
