| Konjugation              | FITC                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | The RNA directed RNA polymerase is also known as non-structural protein NS5B. NS5B is a 65 kDa protein that resembles other viral RNA polymerases. Hepatitis C virus (HCV) replication is thought to occur in membrane bound replication complexes. These ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                       |

|                        |                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------|
| Quelle                 | KLH conjugated synthetic peptide derived from Hepatitis C Virus RNA-directed RNA polymerase |
| Reinheit               | Purified by Protein A.                                                                      |
| Target-Kategorie       | Hepatitis C Virus RNA-directed RNA polymerase                                               |
| Application Verdünnung | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200)                 |
