| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-Fr, IHC-P                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Provides, together with MAGI1, an adhesion machinery at tight junctions, which may regulate the permeability of kidney glomerulus and small intestinal epithelial cells. Mediates calcium-independent homophilic cell adhesion. In testis, it may function... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">150084</a>                                                                                                                                                                                                                                        |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                       |

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| Quelle                 | KLH conjugated synthetic peptide derived from human IGSF5                 |
| Reinheit               | Purified by Protein A.                                                    |
| Target-Kategorie       | IGSF5                                                                     |
| Application Verdünnung | ELISA(ELISA=1:5000-10000), IHC-P(IHC-P=1:100-500), IHC-F(IHC-F=1:100-500) |
