| Konjugation              | HRP                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Might act as an E3 ubiquitin-protein ligase which accepts ubiquitin from specific E2 ubiquitin-conjugating enzymes and then transfers it to substrates, which could be nuclear proteins. Could play a role as a coactivator for androgen- and, to a lesser... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
