| Hersteller               | Nordic BioSite                                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                                                                         |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                  |
| Immunogen                | E.coli-derived human SLC9A1 recombinant protein (Position: H543-Q815). Human SLC9A1 shares 92% and 93% amino acid (aa) sequences identity with mouse and rat SLC9A1, respectively. |
| Konjugation              | Biotin                                                                                                                                                                             |
| Produktbeschreibung      | Anti-Sodium/Hydrogen Exchanger 1/SLC9A1 Antibody . Tested in IHC, WB applications. This antibody reacts with Human, Mouse, Rat....                                                 |
| Klonalität               | Polyclonal                                                                                                                                                                         |
| Konzentration            | 500 ug/ml                                                                                                                                                                          |
| Molekulargewicht         | 90763 MW                                                                                                                                                                           |
| Sensitivitaet            | <5pg/ml                                                                                                                                                                            |

|                  |                                    |
