| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | FC, ICC, IF, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human, Monkey, Rat                                                                                                                                                                                                                                           |
| Immunogen                | E.coli-derived human Pin1 recombinant protein (Position: M1-E163). Human Pin1 shares 95% amino acid (aa) sequence identity with mouse Pin1.                                                                                                                  |
| Konjugation              | PE                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Boster Bio Anti-Pin1 Antibody Picoband (monoclonal, 5E5) catalog M00467-1. Tested in Flow Cytometry, IF, ICC, WB applications. This antibody reacts with Human, Monkey, Rat. The brand Picoband indicates this is a premium antibody that guarantees supe... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                   |

|                        |                                                                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Konzentration          | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                |
| Klon-Bezeichnung       | [Clone: 5E5]                                                                                                                                                             |
| Molekulargewicht       | 18 kDa                                                                                                                                                                   |
| Isotyp                 | IgG2b                                                                                                                                                                    |
| UniProt                | <a href="#">Q13526</a>                                                                                                                                                   |
| Puffer                 | Each vial contains 4 mg Trehalose, 0.9 mg NaCl and 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .                                                                             |
| Reinheit               | Immunogen affinity purified.                                                                                                                                             |
| Formulierung           | Lyophilized                                                                                                                                                              |
| Application Verdünnung | Western blot, 0.25-0.5 µg/ml, Human, Monkey, Rat<br>Immunocytochemistry/Immunofluorescence, 5 µg/ml, Human Flow Cytometry (Fixed), 1-3 µg/1x10 <sup>6</sup> cells, Human |
