| Hersteller               | Boster Bio                                                                                                                                                                                                                                                   |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                        |
| Immunogen                | A synthetic peptide corresponding to a sequence at the N-terminus of human ErbB 2, identical to the related mouse and rat sequences.                                                                                                                         |
| Konjugation              | Biotin                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Boster Bio Anti-ErbB 2/ERBB2 Antibody Picoband catalog A00010-2. Tested in IHC, WB applications. This antibody reacts with Human. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high affinity, and strong sig... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Konzentration            | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |
| Molekulargewicht         | 185 kDa                                                                                                                                                                                                                                                      |

|                        |                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P04626</a>                                                                              |
| Puffer                 | Each vial contains 4 mg Trehalose, 0.9 mg NaCl and 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .        |
| Reinheit               | Immunogen affinity purified.                                                                        |
| Formulierung           | Lyophilized                                                                                         |
| Application Verdünnung | Immunohistochemistry (Paraffin-embedded Section), 2-5µg/ml, Human Western blot, 0.1-0.5µg/ml, Human |
