| Applikation              | FC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                        |
| Immunogen                | E.coli-derived human LMO2 recombinant protein (Position: A4-E150). Human LMO2 shares 100% amino acid (aa) sequence identity with mouse LMO2.                                                                                                                 |
| Konjugation              | FITC                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Boster Bio Anti-LMO2 Antibody Picoband catalog A00146-4. Tested in WB, IP, Flow Cytometry, ELISA applications. This antibody reacts with Human. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high affinity, ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Konzentration            | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |

|                        |                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------|
| Molekulargewicht       | Calculated Molecular Weight: 52588 MW                                                                        |
| NCBI                   | <a href="#">4005</a>                                                                                         |
| UniProt                | <a href="#">P25791</a>                                                                                       |
| Puffer                 | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% NaN <sub>3</sub> . |
| Reinheit               | Immunogen affinity purified.                                                                                 |
| Formulierung           | Liquid                                                                                                       |
| Target-Kategorie       | Serine/threonine-protein kinase AtPK1/AtPK6                                                                  |
| Application Verdünnung | Flow Cytometry, 1-3µg/1x10 <sup>6</sup> cells                                                                |
