| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                                 |
| Immunogen                | Recombinant Human Adiponectin/Acrp30/ADIPOQ Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Glu19-Asn244) of human Adiponectin/Acrp30 (Accession NP_001171271.1) fused with a 6*His tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                     |
