| Hersteller               | Nordic BioSite                                                                                                                                                                                                                                          |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                        |
| Immunogen                | Recombinant Mouse TNFRSF13C/BAFFR/CD268 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Ser10-Ala71) of mouse BAFFR/TNFRSF13C (Accession NP_082351.1) fused with a Fc, Avi tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                            |
