| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                    |
| Immunogen                | Recombinant Human NKAT-1/KIR2DL1/CD158a Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (His22-Arg242) of human KIR2DL1 (Accession NP_055033.2) fused with a 6*His, Avi tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                        |
