| Immunogen                | Recombinant Human TNFRSF1A/TNF-R1/CD120a Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Ile22-Thr211) of human CD120a/TNFRSF1A (Accession NP_001056.1) fused with 6*His tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                          |
