| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                            |
| Immunogen                | Recombinant Mouse TNFRSF1B/TNF-R2/CD120b Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Val23-Gly258) of mouse TNFR2/CD120b/TNFRSF1B (Accession NP_035740.2) fused with a hFc tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                |
