| Hersteller               | Nordic BioSite                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                      |
| Immunogen                | Active Recombinant Human FLT-3/FLK-2 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Asn27-Asn541) of human Flt-3 (Accession NP_004110.2) fused with an 6*His tag and Fc tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                          |
