| Hersteller               | Nordic BioSite                                                                                                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                          |
| Immunogen                | Recombinant Human CEA/CD66e Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Lys35-Ala685) of human CEACAM-5/CD66e (Accession NP_004354.2) fused with a 6*His tag at the C-terminus. |
| Konjugation              | Unconjugated                                                                                                                                                                                                                              |
| Produktbeschreibung      | Human CEA/CD66e protein (Recombinant) (C-His)...                                                                                                                                                                                          |
