| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                            |
| Immunogen                | Recombinant Human FAS/APO-1/CD95 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gln26-Asn173) of human FAS/CD95/APO-1/TNFRSF6 (Accession NP_000034.1) fused with an Fc, 6*His tag at the C-terminus. |
| Produktbeschreibung      | Human FAS/APO-1/CD95 protein (Recombinant) (C-hFc & His)...                                                                                                                                                                                                 |
