Product Datasheet

Native Penicillium Dextranase, CAS [[9025-70-1]] CRM-NATE-0194

Artikelname	Native Penicillium Dextranase, CAS [[9025-70-1]]
Artikelnummer	CRM-NATE-0194
Hersteller Artikelnummer	NATE-0194
Alternativnummer	CRM-NATE-0194-100
Hersteller	Creative BioMart
Kategorie	Biochemikalien
Konzentration	3,000 units/mg
CAS Nummer	[9025-70-1]
Anwendungsbeschreibung	Dextranase from Penicillium has been used in a study to assess the purification properties of an extracellular dextranase from Penicillium janthinellum. Dextranase from Penicillium has also been used in a study to investigate the carbohydrate component of Penicillium funiculosum dextranase. It has been used for the hydrolysis of carbohydrate polymers, during the study of polysaccharide synthesis by Phanerochaete chrysosporium. It has also been used in the synthesis of new enzymatically degradable thermo-responsive nanogels.
