Cystathionine gamma-lyase, Recombinant: 11.25 KU/mg,, CAS [[9012-96-8]] **CRM-NATE-1144**

Artikelname	Cystathionine gamma-lyase, Recombinant: 11.25 KU/mg,, CAS [[9012-96-8]]
Artikelnummer	CRM-NATE-1144
Hersteller Artikelnummer	NATE-1144
Alternativnummer	CRM-NATE-1144-10
Hersteller	Creative BioMart
Kategorie	Biochemikalien
Produktbeschreibung	Cystathionine gamma-lyase (CGL),or cystathionase (CSE, EC 4.4.1.1) , the enzyme participating in the synthesis of cysteine, catalyzes cystathionine deamination action, and form cysteine, alpha ketone butyric acid and NH3. In some bacteria and mammals...
Konzentration	11.25 KU/mg
CAS Nummer	[9012-96-8]
Anwendungsbeschreibung	H2S plays an important rolein the regulation of the bodys microcirculation, especially the regulation of physiological/pathological processes and related syndromes in the cardiovascular system. Because of the close relationship between CGL and H2S, the study on CGL is of great significance.
