| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Zebrafish                                                                                                                                                                                                                                                     |
| Immunogen                | An E.coli-derived zebrafish DNAJA2a/b recombinant protein (amino acids M1-Q230) was used as the immunogen for the Zebrafish Dnaja2 antibody. This antibody will detect the a and b isoforms.                                                                  |
| Produktbeschreibung      | Dnaj homolog subfamily A member 2 is a protein that in humans is encoded by the DNAJA2 gene. It is mapped to 16q11.2. The protein encoded by this gene belongs to the evolutionarily conserved DNAJ/HSP40 family of proteins, which regulate molecular cha... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">Q7ZUP5</a>                                                                                                                                                                                                                                        |
| Puffer                   | Lyophilized from 1X PBS with 2% Trehalose                                                                                                                                                                                                                     |
| Reinheit                 | Antigen affinity chromatography                                                                                                                                                                                                                               |

|                        |                                                                                           |
|------------------------|-------------------------------------------------------------------------------------------|
| Formulierung           | 0.5mg/ml if reconstituted with 0.2ml sterile DI water                                     |
| Antibody Type          | Primary Antibody                                                                          |
| Application Verdünnung | Western blot: 0.5-1 ug/ml,Immunohistochemistry (FFPE): 2-5 ug/ml                          |
| Anwendungsbeschreibung | Optimal dilution of the Zebrafish DNAJA2 antibody should be determined by the researcher. |
