| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Zebrafish                                                                                                                                                                                                                                                     |
| Immunogen                | An E.coli-derived zebrafish Aff4 recombinant protein (amino acids M1-E60) was used as the immunogen for the Zebrafish Aff4 antibody.                                                                                                                          |
| Produktbeschreibung      | The AFF4 gene encodes a scaffold protein that functions as a core component of the super elongation complex (SEC), which is involved in transcriptional regulation during embryogenesis. The protein encoded by this gene belongs to the AF4 family of tra... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">A0A8N7TEI3</a>                                                                                                                                                                                                                                    |
| Puffer                   | Lyophilized from 1X PBS with 2% Trehalose                                                                                                                                                                                                                     |
| Reinheit                 | Antigen affinity chromatography                                                                                                                                                                                                                               |

|                        |                                                                                         |
|------------------------|-----------------------------------------------------------------------------------------|
| Formulierung           | 0.5mg/ml if reconstituted with 0.2ml sterile DI water                                   |
| Antibody Type          | Primary Antibody                                                                        |
| Application Verdünnung | Western blot: 0.5-1 ug/ml                                                               |
| Anwendungsbeschreibung | Optimal dilution of the Zebrafish Aff4 antibody should be determined by the researcher. |
