| Artikelname              | Recombinant Human CD24 Fc Chimera Protein, Insect Cells Derived                                                                                                       |
| Artikelnummer            | APE-P1596                                                                                                                                                             |
| Hersteller Artikelnummer | P1596                                                                                                                                                                 |
| Alternativnummer         | APE-P1596-5UG,APE-P1596-100UG,APE-P1596-500UG                                                                                                                         |
| Hersteller               | ApexBio                                                                                                                                                               |
| Kategorie                | Proteine/Peptide                                                                                                                                                      |
| Molekulargewicht         | The protein has a calculated MW of 30.4 kDa, containing 276 amino acids. The protein migrates as 40-50 kDa in SDS-PAGE under reducing condition due to glycosylation. |
| Reinheit                 | > 95 % by SDS-PAGE analyses.Endotoxin: Less than 0.1 EU/μg of rHuCD24-Fc as determined by LAL method.                                                                 |
