| Produktbeschreibung      | Beta-catenin associates with the cytoplasmic portion of E-cadherin. The catenin/cadherin complexes play an important role mediating cellular adhesion, including adherens junctions. Beta-catenin is involved in the Wnt signaling pathway as well as othe... |
| Konzentration            | 0.1 mg/mL                                                                                                                                                                                                                                                     |
