| Spezies Reaktivität      | Bovine, Duck, Gallus, Human, Monkey, Mouse, Porcine, Rat, Yeast                                                                                                                                                                                               |
| Konjugation              | CF 740                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | This recombinant monoclonal mouse anti-6X His tag with CF740 dye. CF dyes are Biotiums line of next-generation fluorescent dyes with advantages in brightness, photostability, and conjugate specificity. CF740 dye has excitation/emission at 740/775 nm.... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                   |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [2405.H6]                                                                                                                                                                                                                                                     |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | PBS, 50% glycerol, 2 mg/ml rBSA, 0.05% azide                                                                             |
| Quelle                 | Animal                                                                                                                   |
| Anwendungsbeschreibung | Immunofluorescence (HeLa): 1-5 ug/mL   Near-IR WB: 0.1-0.5 ug/mL.<br>Optimal concentration to be determined by end-user. |
