| Hersteller               | Bio X Cell                                                                              |
| Wirt                     | Mouse                                                                                   |
| Kategorie                | Antikörper                                                                              |
| Spezies Reaktivität      | Human, Monkey                                                                           |
| Immunogen                | Human lymphoblastoid B cell line RPMI 8866.9                                            |
| Klonalität               | Monoclonal                                                                              |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                               |
| Klon-Bezeichnung         | [L243]                                                                                  |
| Molekulargewicht         | 150 kDa                                                                                 |
| Pubmed                   | <a href=https://pubmed.ncbi.nlm.nih.gov/26719533 target=_blank<br>rel=nofollow>26719533 |
| Reinheit                 | >95%, Determined by SDS-PAGE                                                            |

|                        |                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formel                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                                               |
| Target-Kategorie       | MHC class II                                                                                                                                                        |
| Anwendungsbeschreibung | in vitro blocking of MHC class II HLA-DR, HLA class II binding assay, in vitro MHC class II HLA-DR expressing cell negative selection, Western blot, Flow cytometry |
