## Product Datasheet

### InVivoMAb anti-human CD2, Clone: [LO-CD2a], Rat, Monoclonal BXC-BE0406

|                          |                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------|
| Artikelname              | InVivoMAb anti-human CD2, Clone: [LO-CD2a], Rat, Monoclonal                          |
| Artikelnummer            | BXC-BE0406                                                                           |
| Hersteller Artikelnummer | BE0406                                                                               |
| Alternativnummer         | BXC-BE0406-1MG,BXC-BE0406-5MG,BXC-BE0406-25MG,BXC-BE0406-50MG,BXC-BE0406-100MG       |
| Hersteller               | Bio X Cell                                                                           |
| Wirt                     | Rat                                                                                  |
| Kategorie                | Antikörper                                                                           |
| Spezies Reaktivität      | Human                                                                                |
| Immunogen                | Purified human T lymphocytes                                                         |
| Klonalität               | Monoclonal                                                                           |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                            |
| Klon-Bezeichnung         | [LO-CD2a]                                                                            |
| Molekulargewicht         | 150 kDa                                                                              |
| Pubmed                   | <a href=https://pubmed.ncbi.nlm.nih.gov/19459808 target=_blank rel=nofollow>19459808 |
| Reinheit                 | 95% , Determined by SDS-PAGE                                                         |
| Formel                   | PBS, pH 7.0, Contains no stabilizers or preservatives                                |
| Target-Kategorie         | CD2                                                                                  |

|                        |                                                                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | in vivo T cell depletion , in vivo prevention of graft rejection, in vitro inhibition of MLR , Functional assays, Immunohistochemistry (frozen), ELISA |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
