## Product Datasheet

### InVivoMAb anti-rat CD25 (IL-2Ralpha), Clone: [OX-39], Mouse, Monoclonal BXC-BE0453

|                          |                                                                                                                                           |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | InVivoMAb anti-rat CD25 (IL-2Ralpha), Clone: [OX-39], Mouse, Monoclonal                                                                   |
| Artikelnummer            | BXC-BE0453                                                                                                                                |
| Hersteller Artikelnummer | BE0453                                                                                                                                    |
| Alternativnummer         | BXC-BE0453-1MG,BXC-BE0453-5MG,BXC-BE0453-25MG,BXC-BE0453-50MG,BXC-BE0453-100MG                                                            |
| Hersteller               | Bio X Cell                                                                                                                                |
| Wirt                     | Mouse                                                                                                                                     |
| Kategorie                | Antikörper                                                                                                                                |
| Spezies Reaktivität      | Rat                                                                                                                                       |
| Immunogen                | T blasts from a mixed lymphocyte reaction between purified CD4+ T cells and irradiated spleens                                            |
| Klonalität               | Monoclonal                                                                                                                                |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                                                                                 |
| Klon-Bezeichnung         | [OX-39]                                                                                                                                   |
| Molekulargewicht         | 150 kDa                                                                                                                                   |
| Pubmed                   | < <a href="https://pubmed.ncbi.nlm.nih.gov/2828930">a href=https://pubmed.ncbi.nlm.nih.gov/2828930</a> target=_blank rel=nofollow>2828930 |
| Reinheit                 | 95% , Determined by SDS-PAGE                                                                                                              |

|                        |                                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formel                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                                                                            |
| Target-Kategorie       | CD25                                                                                                                                                             |
| Anwendungsbeschreibung | in vivo functional assays, in vitro functional assays,<br>Immunohistochemistry (paraffin), Immunohistochemistry (frozen),<br>Immunoprecipitation, Flow cytometry |
