## Product Datasheet

### **InVivoPlus anti-mouse CD3epsilon, IgG1, Clone: [145-2C11], Hamster, Monoclonal BXC-BP0001-1**

|                          |                                                                                                                                              |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | InVivoPlus anti-mouse CD3epsilon, IgG1, Clone: [145-2C11], Hamster, Monoclonal                                                               |
| Artikelnummer            | BXC-BP0001-1                                                                                                                                 |
| Hersteller Artikelnummer | BP0001-1                                                                                                                                     |
| Alternativnummer         | BXC-BP0001-1-5MG,BXC-BP0001-1-25MG,BXC-BP0001-1-50MG,BXC-BP0001-1-100MG                                                                      |
| Hersteller               | Bio X Cell                                                                                                                                   |
| Wirt                     | Hamster                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                   |
| Spezies Reaktivität      | Mouse                                                                                                                                        |
| Immunogen                | Mouse BM10-37 cytotoxic T cells                                                                                                              |
| Klonalität               | Monoclonal                                                                                                                                   |
| Konzentration            | Lot specific,typically between 4-11 mg/ml                                                                                                    |
| Klon-Bezeichnung         | [145-2C11]                                                                                                                                   |
| Molekulargewicht         | 150 kDa                                                                                                                                      |
| Isotyp                   | IgG1                                                                                                                                         |
| Pubmed                   | < <a href="https://pubmed.ncbi.nlm.nih.gov/25367572">a href=https://pubmed.ncbi.nlm.nih.gov/25367572</a> target=_blank rel=nofollow>25367572 |

|                        |                                                                                                                    |
|------------------------|--------------------------------------------------------------------------------------------------------------------|
| Puffer                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                              |
| Reinheit               | 95% , Determined by SDS-PAGE                                                                                       |
| Formulierung           | Liquid                                                                                                             |
| Formel                 | PBS, pH 7.0, Contains no stabilizers or preservatives                                                              |
| Target-Kategorie       | CD3epsilon                                                                                                         |
| Anwendungsbeschreibung | in vivo T cell depletion, in vitro T cell stimulation/activation, Immunofluorescence, Flow cytometry, Western blot |
