| Produktbeschreibung      | This gene encodes one of the non-SMC subunits of the condensin II complex. This complex plays an essential role in mitotic chromosome assembly. Alternate splicing of this gene results in multiple transcript variants.[provided by RefSeq, May 2010]... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                |
