| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                           |
| Immunogen                | Recombinant Human Lutropin beta chain/LHB Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Ser21-Leu141) of Human LHB (Accession NP_000885.1) fused with a His tag at the C-terminus. |
| Produktbeschreibung      | Human Lutropin beta chain/LHB protein (Recombinant) (C-His)...                                                                                                                                                                             |
